

XMAI VENDING MACHINE

150M+ Users Served Globally

About Us

Intelligent Retail Solutions Provider

At XMAI Vending, Inc., we are a leading smart retail solutions provider and pioneer in AI-powered unattended retail. Focused on the North American market, we deliver reliable automated retail solutions across the U.S. and globally.

Since 2016, we've launched AI vision-enabled vending machines powered by our proprietary Dynamic Vision technology. This innovation supports a broader product offering, from beverages to fresh food, while driving higher revenue for operators.

Today, we serve 5,000+ enterprise clients and have deployed 200,000+ machines worldwide. Our machines are widely used in offices, campuses, and hospitals, demonstrating proven long-term reliability.

Company History

Driven by innovation, leading the industry forward.

2016-2017

INNOVATION GENESIS

Launched Dynamic
Vision & Gravity Technologies.

2018-2019

INDUSTRY DEFINING

Pioneered Fully
Dynamic Automation.

2021-2022

IN-HOUSE MANUFACTURING

Achieved 30,000+
Annual Shipments.

2023-2026

GLOBAL SCALING

100,000+ Unit Capacity
Deploying a million-location
network.

Software System Solutions

Device Features

Craftsmanship • Performance • Durability

Panoramic View • High Capacity

Flexible, stackable merchandising with no shelf restrictions. Double your inventory capacity and cut restocking costs by 50%.

Effortless Operations • Mobile Design

Slim, mobile design equipped with heavy-duty casters. Fits standard elevators and hallways for seamless setup and relocation.

Rugged Build • Secure Locking

Built to last with a reinforced steel frame and double-pane tempered glass. Engineered for long-term reliability and maximum ROI.

Smart Control • Energy Efficiency

One-tap mobile management for temperature and lighting. Optimize energy savings and adjust seasonal settings from anywhere.

Detailed Specifications

The Right Fit for Every Space

XMAI Core

Item	Specification
Exterior Dimensions(WxDxH)	24.4" × 23.6" × 78.9"
Shelf Display	6 shelves 8 columns 7 rows (approx. 336 bottles)
Temperature Range	32°F–50°F
Product Weight	198.5 lbs
Power Consumption	2.3 kWh/day
Payment Methods	      
Additional Features	<input checked="" type="checkbox"/> Remote Temperature Control <input checked="" type="checkbox"/> Remote Brightness <input checked="" type="checkbox"/> Dual Tempered Glass <input checked="" type="checkbox"/> 24/7 Fault Monitoring

Detailed Specifications

The Right Fit for Every Space

XMAI Pro

Item	Specification
Exterior Dimensions(WxDxH)	25.6" × 26.8" × 79.6"
Shelf Display	7 shelves 8 columns 8 rows (approx. 416 bottles)
Temperature Range	32°F–50°F
Product Weight	231.5 lbs
Power Consumption	2.9 kWh/day
Payment Methods	      
Additional Features	<ul style="list-style-type: none">☑ Remote Temperature Control☑ Remote Brightness☑ Dual Tempered Glass☑ 24/7 Fault Monitoring

Service & Support

Reliable Support. Built for Operators.

Reliable Support for Your Operations

XMAI
Care Standard

Reliable support for everyday operations, designed to keep your machines running efficiently with responsive service, technical assistance, and continuous system support.

XMAI
Care Pro

Comprehensive support for scaling operators, offering tailored solutions, dedicated account management, and priority service to maximize performance and uptime.

Features & Benefits

Premium, Reliable Products & Services

24x7 Support

Round-the-clock remote technical support.

Maximize Security

AI monitors the entire shopping journey to prevent loss and theft.

Boost Revenue

Generate 30-40% higher profits than traditional vending machines.

Control Costs

Half the upfront cost of traditional machines, with flexible financing options.

Smarter Operations

Boost loyalty and lifetime value with data-driven optimization.

Smart Marketing

Run targeted promotions and display dynamic ads to drive more sales.

Payment Compliance

EMV-compliant, cashless payments with instant settlement.

Energy Efficient

Smart temperature control cuts power use and extends product shelf life.

XMAI Super Factory

Built for Global Vending Success

With 10 years of focus on smart vending machine manufacturing, XMAI Super Factory is equipped with 8 automated production lines and an annual capacity of 100,000 units. Manufacturing 60% of our core components in-house enhances product reliability, while our modular design supports wide application across global markets.

Every unit passes 80+ rigorous quality checks to deliver stable performance and long-term durability. We uphold high standards in quality, cost efficiency, and on-time delivery, empowering operators worldwide with reliable, high-performance vending solutions.

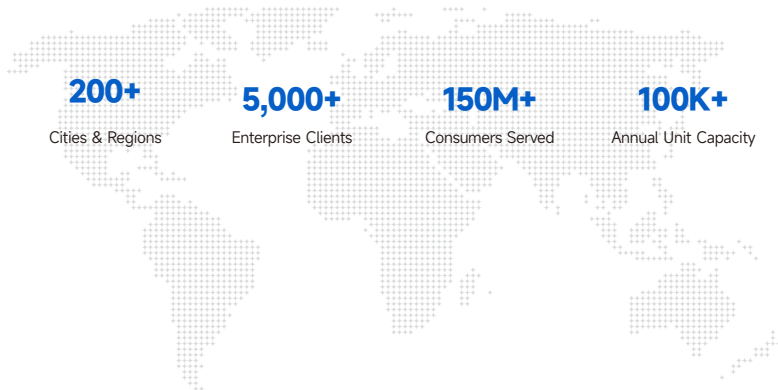

Why Partner With Us

We believe strong partnerships are built on close collaboration and shared success.

- **High Margin Potential**
Maximize your profits
- **Partner-First Approach**
We grow with you
- **Protected Territories**
No channel conflict
- **Reliable Products**
Built to last
- **Low Risk**
No inventory, no deposit
- **Advanced, High-Capacity Line**
Easy to sell, strong repeat business
